## Spesifikasi AD9512BCPZ-REEL7

|                                     |                                                                                     |
|-------------------------------------|-------------------------------------------------------------------------------------|
| NOMBOR BAHAGIAN                     | AD9512BCPZ-REEL7                                                                    |
| PENGELUAR                           | ADI (Analog Devices, Inc.)                                                          |
| PENERANGAN                          | IC CLK BUFFER 2:5 1.2GHZ 48LFCSP                                                    |
| STATUS STATUS PERCUMA / ROHS STATUS | Lead percuma / RoHS Compliant                                                       |
| LEMBARAN DATA                       | <a href="#">PDF AD9512BCPZ-REEL7.pdf</a>                                            |
| VOLTAN - BEKALAN                    | 3.135 V ~ 3.465 V                                                                   |
| JENIS                               | Fanout Buffer (Distribution), Divider                                               |
| PEMBEKAL PERANTI PAKEJ              | 48-LFCSP-VQ (7x7)                                                                   |
| SIRI                                | -                                                                                   |
| NISBAH - INPUT: OUTPUT              | 2:5                                                                                 |
| PEMBUNGKUSAN                        | Tape & Reel (TR)                                                                    |
| PAKEJ / KES                         | 48-VFQFN Exposed Pad, CSP                                                           |
| PENGELUARAN                         | CMOS, LVDS, LVPECL                                                                  |
| NAMA LAIN                           | AD9512BCPZ-REEL7-ND<br>AD9512BCPZ-REEL7TR                                           |
| SUHU OPERASI                        | -40°C ~ 85°C                                                                        |
| BILANGAN CIRCUITS                   | 1                                                                                   |
| PEMASANGAN JENIS                    | Surface Mount                                                                       |
| TAHAP SENSITIVITI LEMBAPAN (MSL)    | 3 (168 Hours)                                                                       |
| PENGI LANG STANDARD LEAD TIME       | 7 Weeks                                                                             |
| STATUS STATUS PERCUMA / ROHS STATUS | Lead free / RoHS Compliant                                                          |
| INPUT                               | Clock                                                                               |
| KEKERAPAN - MAX                     | 1.2GHz                                                                              |
| BERBEZA - INPUT: OUTPUT             | Yes/Yes                                                                             |
| PENERANGAN TERPERINCI               | Clock Fanout Buffer (Distribution), Divider IC 2:5 1.2GHz 48-VFQFN Exposed Pad, CSP |
